 Filed: March 1, 2004 Examiner: Daryl C. Pope  
 Title: NETWORKS WITH SENSORS FOR AIR SAFETY AND SECURITY

NOTICE OF LARGE ENTITY STATUS

Bellevue, Washington 98004

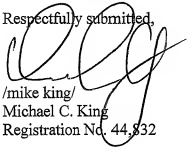

July 24, 2007

TO THE COMMISSIONER FOR PATENTS:

Notice of Large Entity Status

When the above-identified patent application was filed, small entity status was claimed on the application transmittal letter. While the assignee previously qualified for small entity status, recent organizational changes implemented by the assignee mean that assignee no longer qualifies for such status. The claim for small entity status in the previously submitted application transmittal letter was made without deceptive intent. It is respectfully requested that the application file be updated to reflect that this application is subject to large entity fees. As the application was filed incomplete, no fees were paid at the time of filing. The fees submitted with the issue fee are calculated at the **large entity** rate.

Respectfully submitted,

  
 /mike king/
